Mobile Technologies Policy

Introduction

The term 'mobile technologies' refers to equipment which is portable, and which has recording and / or photographic capability. Whilst mobile phones are the most commonly used, this policy also applies to technology such as iPads and tablets. This policy outlines the acceptable use of mobile technologies at Rowan Wood in the context of safeguarding, underpinned by our statement of vision and values which permeates everything we do and say. At Rowan Wood we recognise the vulnerability of our children and young people and the potential for exploitation and abuse through the inappropriate use of mobile technology. We take steps to ensure that our safeguarding procedures are all-encompassing and robust. The mobile technologies policy applies when children and young people are present. Occasionally children and young people may access a mobile device for diabetes management. These do not have camera or call capability. All other mobile devices used within the school day by children and young people are with supervision and using the school filtering and monitoring systems.

Aims

The policy aims to:

- Ensure that there is clear and shared understanding of and adherence to its principles of by all stakeholders and visitors (including contractors, kitchen staff, mid-day cleaners)
- Raise the awareness of all staff (including students on placement, volunteers and those from supply agencies) of the crucial role of safeguarding in all areas of school life
- Alert staff members to the potential for predatory behaviour in a range of contexts through various means and ensure increased vigilance
- Secure an environment in which children and young people (and their families) are protected from the risk of images being recorded and used / stored for inappropriate purposes
- Make sure that children and young people receive the undivided attention of adults at all time.

Key principles which underpin this policy

- Every child or young person has a right to be valued as an individual and treated with dignity and respect
- The safeguarding of children and young people is of paramount importance
- All children and young people have a fundamental right to be protected from harm
- Every staff member is accountable for the safeguarding of our children and young people.

Mobile Technology – Staff: acceptable use

At Rowan Wood we recognise that mobile technology plays an important part in the lives of a significant majority of adults and, when used as they are intended, can bring substantial benefits. We also acknowledge that there is a risk that they can be used for the taking, storing and using of images inappropriately in a way that denies children and

young people's right to dignity, privacy and respect and satiates a desire to exploit. They also have the potential to distract staff from their work with children and young people.

Staff members (including volunteers and students on placement) may bring mobile technology onto the school site on the understanding that the device:

- is used only in the staffroom, outside of the school gate, or (in exceptional circumstances) in office spaces
- is stored in a designated locker away from children and young people (or pedestal drawer or cupboard in the case of office-based staff)
- only used during break times and at either end of the school day
- is not used as a point of contact by relatives, friends, child's school, GP, etc.

(Staff must ensure that all potential contacts have the school landline number so that initial contact is made directly to the school office)

- When off-site, designated members of the group will have a mobile phone available for emergency contact with the school, with each other or with the emergency services. In this context phones will not be used to make or receive personal calls
- Personal mobile technology must not be used to take photos of children and young people except in very exceptional circumstances when permission from a senior leader must be sought and granted in advance and the image erased as soon as possible in the presence of a work colleague
- Teachers who use a personal mobile phone or other form of technology, outside of the school day, to exchange information with parents and carers must do so with extreme caution. Teaching Assistants are strongly discouraged from doing so
- The above information is shared with new staff members as part of the induction process

Mobile Technology – Visitors (including parents, professionals and contractors)

- Visitors may bring mobile technology on to the school site but, when visiting the main school, are asked to switch their devices off and place them out-of-sight until they leave the building and have exited the school gate. This is done as part of the meet-and-greet process in a way that makes clear our safeguarding priorities
- Agency supply staff will be asked to store their phones in designated lockers by reception
- Visitors waiting briefly in reception – e.g. to collect a child or young person – may keep phones or other technology to hand but they must be stored out of sight and not used
- Visitors attending courses in the meeting rooms may use their devices once inside those rooms. On leaving, devices must be switched off and kept out-of-sight until outside of the school gate
- Visitors found to be using their phones in contravention of this guidance will initially be reminded of the policy and ultimately asked to leave
- A brief, jargon-free policy summary is available for staff to share with visitors. This ensures that the message is consistent and unequivocal
- Where possible, all visitors are made aware of the mobile technology policy in advance either through written or verbal communication (e.g. for parents this

may be in 'New Starter' documentation, school newsletters, letters inviting parents to annual review meetings, mailings, emails, etc)

- If contractors are required to have their mobile phone to hand in order to convey live information to their line manager or head office they will seek prior permission to do so in advance and will be accompanied around the site
- The use of personal devices to take photographs of the site (internal or external e.g. corridors, classrooms, central areas, swimming pool, etc of children and young people or of staff is strictly prohibited unless in consultation and prior agreement with school leaders

Roles and responsibilities

It is the responsibility of all staff members to exercise vigilance at all times and to raise concerns as soon as possible, either directly with the person who is contravening expectations or by reporting the incident to a senior leader as soon as possible after the event.

Senior leaders will investigate the detail surrounding reported incidents and take action accordingly. If a staff member is found to have contravened policy expectations the matter will be dealt with as a disciplinary matter.
